

## Final Project Proposal and Wireframes - Debra Knight

For my final project I will build a simple four page website for my business, Knight Design Studio. This will be a portfolio site to begin with that promotes my services and shows some samples of my work. It will also include a page about me so client's can get to know me better. And finally, it will include a page with contact information and a contact email box that returns information to me.

The four pages in the site will be the home page, portfolio page, about page and the contact information page.

You just opened the doors on the business you've been dreaming about for years.

Competition just moved into the neighborhood and you need to get one step ahead of them.

Business was great at first but now the sales have slowed and you're worried.

The economy took a tumble and you're not selling as much as you would like to be.

## What's Your Next Move?

Photo

### MARKETING

You need to let people know who you are and what you do so that if they need your product or services, they know where to find you. That's marketing. I'll help you put together a marketing plant that will get the word out.
